

Meet Board Member John O'Connell

When did you join the board?

I joined the Board in 2010

Why did you join?

I have been working in different capacities with Dr Dan for over 20 years and when he began this endeavor with SAVE I wanted to be a part of it. Sadly, I have also been touched with suicides in my life which made my drive to join and help make a difference and help people in their lives even stronger.

What skills to you bring to the board?

I have over 25 years of marketing and event experience and have worked with several charities and organizations throughout my career that can lend a credible voice to SAVE moving forward.

What do you most like about serving on the board?

SAVE is an organization that has and can make a difference in so many lives in so many different ways through their messaging and support that I hope to continue to enhance for many years to come. We can all make a difference by just being involved in some way.
