

Meet Board Member Kathy Sandberg

When did you join the board?

I joined the Board in 2019.

Why did you join?

A friend suggested that I consider applying for the Board. I had recently retired but spent much of my career in the behavioral health arena working in both treatment and prevention. After investigating the organization and talking with Dan, the executive director I applied and was welcomed to the Board. I am keenly aware of the need for quality suicide prevention efforts as well as support for those touched by suicide....work that SAVE does exceedingly well.

What skills do you bring to the board?

I hope that my career experiences in chemical health add to the Board's ongoing work in understanding, responding to and preventing suicide. I am a willing writer of various things and happy to contribute in that way. Plus, I take direction well and enjoy working at our local SAVE events!

What do you most like about serving on the board?

I really appreciate the opportunity to participate in efforts that make a difference. It has also been fascinating getting to know other Board members from various backgrounds. It is inspiring to spend time with them, Dan, and the other SAVE staff members. I am honored to serve such an outstanding organization.
